

VetCoin: Whitepaper

Overview

VetCoin is a utility-first, veteran-developed token built on the Ethereum blockchain. It's not a meme, not a moment it's a mission. Designed for long-term adoption and meaningful application, VetCoin puts purpose over pump and delivers value through community, credibility, and commitment.

Why VetCoin?

Because too many projects are built on empty hype and vapor promises. VetCoin is grounded in something real: service, sacrifice, and the idea that doing good can still be good business. This token is created by veterans, for everyone who believes in integrity, transparency, and shared upside.

Core Values

- Rooted in Service: Born from lived experience and shaped by community needs.
